Dolgoprudny, Russia

EDUCATION

Bachelor, MIPT:

- Second year student of Moscow Institute of Physics and Technology, Department of Radio Engineering and Cybernetics (2023 - present)

Educational courses:

- I. R. Dedinsky's "Ilab"

SKILLS & COMPETENCIES

Languages:

- Russian (native)
- English (A2)

Skills

- Programming languages: C
- Tools: git, make, cmake, LaTeX, Graphviz

Soft skills

- Hard-working
- Sociable
- Creative
- Physics

PROJECTS

Assembler and Processor (C)

Simple CPU emulator with its own stack-based architecture.

[GitHub](#)

Akinator (C)

The idea of implementing Akinator is to create a program that asks the user a series of questions in order to guess the intended word or object.

[GitHub](#)

Two-linked list (C)

A doubly linked list is a data structure in which each element (node) contains two pointers: one to the next element and the other to the previous one. This allows you to efficiently traverse the list both forward and backward.
